## What Does It Mean?

The following letter, which was addressed and delivered to the Mayor yesterday, on behalf of the Republican City Committee, deals with a published report that seems almost incredible:

BANGOR, June 18, 1891.

Hon. Joseph F. Snow, Mayor:

Dear Sir: On May 18, 1891, the City Committee officially notified you as the law requires, of their action in nominating Mr. Charles L. Marston for appointment by you as the Republican member of the Board of Registration of the city.

But you have not been communicated to Mr. William H. Harlow as he was legally nominated by us for that position.

Respectfully yours,

MASTERY G. TRASK,

Chairman of the Republican City Committee.

If the report is true, the Mayor's action is the most astonishing of all the remarkable exhibitions of party partisanship that have been crowded into the brief time of his incumbency of the office. As the clear and unmistakable spirit and purpose of the law to secure the appointment of a Board of Registration upon which each of the two principal political parties shall be represented by a member chosen by the respective committees, with a card member selected by the Governor of the State, we find it difficult to conceive how any Mayor would seek to deprive this important Board of its intended and essential character by personally usurping the legal and moral rights of the thousands of voters of either party to designate their representative thereon.

We are unable to imagine any honorable reason why the Mayor of any city should desire that the voters of either political party should be represented upon the Registration Board by any other than a person selected by and satisfactory to that party. The very basis of the law is the purpose of giving to each of the two principal parties the selection of a member, and for the Mayor to substitute his own preference in such a case, would be as unwarrented in propriety as it would prove destructive of the manifest design of the law.

There is not an honest voter in Bangor, in either political party, who will sanction or approve any attempt by anybody at unfair dealing with the matter of preparing the lists of citizens entitled to vote.

We shall await with interest the Mayor's reply to the dignified and pertinent letter of the Republican City Committee, whose duty in the premises has been imposed by the law of the State.

## Cannot Face Its Own Statements.

The New York Evening Post has withdrawn the standing offer in its columns for 6,000 boxes of tin plate, since Mr. De Milt published his open letter showing the deception practiced in the offer, and offering 100,000 boxes of tin plate at exactly the same price named in the Post's offer. As usual it fails to meet this exposure, but continues its misrepresentation in a different direction. Was there ever a more disreputable free trade than the Post?

Trials of an Organ.

It is only a few days since the Boston Herald declared that the Republicans in Ohio were getting afraid of the tariff question and were inclined to hedge. Now it characterizes the action of the State Convention as "a bit defaced" and says:

At Columbus yesterday Mr. McKinley was nominated by acclamation as the Republican candidate for Governor, and it was said that he was standing squarely on his tariff bill.

When the returns are in this fall the Herald will find that the people of Ohio are standing squarely by the tariff bill, too.

## Major McKinley's Speech.

In accepting the unanimous nomination as the Republican candidate for Governor of Ohio, Major McKinley said in part:

We welcome the closest analysis of the subjects which the new tariff law singled out for taxation and the duties imposed thereon, and we ask a candid construction of our legislation at the hands of the people. We do not place the blame upon the foreign products which come into the United States in competition with the product of our own land and labor. Is that right? What better means are there of raising needed revenues? Are these not products of foreign lands? Are not the protected American products and American labor. We have looked after our own. That is the sum of our offence. I can understand why the foreign producer does not like it, but we never could understand why an American citizen should be unhappy over it. So long as foreign products can be found to tax which compete with our own in our market, we propose to tax the foreign product, and when we do not compete with our own, and when we do not tax our own, we do not compete with home products, except luxuries and those which encourage vice, we propose to permit them to come in free.

We tax the imported rather than the domestic product. The Democratic party prefer to tax the domestic product rather than the imported. It prefers to tax a foreign product, the like of which we do not tax at all, and the price of which the foreigner gives to the American consumer, a tax which benefits no American interest and which is paid wholly by the American consumer, rather than to tax the foreign product, the like of which we do not tax at all, and the price of which the foreigner gives to the American consumer, a tax which benefits no American interest and which is paid wholly by the American consumer.

The great difference between the two parties on this question is that the party of taxation would fall most heavily upon our own people and least to the benefit of competing foreign countries and result in injury to our own. Their tariff legislation would be most injurious to us.

Ours would benefit our own without being unjust to any other. We follow in our tariff policy the teachings of Washington and Lincoln, and play the Webster and Lincoln and Garrison game. They are the policies of Cobden and Bright and Cobden and the statesmen of the late Southern confederacy. They are pledged now to impose, if they can, the prosperity of the country upon the people of the Free State election. That is their mission this year. Business disaster and reverse are the badge of their hopes. Prosperity and contentment among the people bring them success. They are the foreign factories, dismantled factories, silent mines, unemployed workmen, general distress, and are the sure harbingers of Democratic victory.

They are discouraging industrial activity through their press and orators everywhere, and are hard to see any manifestation of industrial advancement in the United States. They know at every attempt to establish new factories and would gladly drown them down. It is the same with our own industries which have been established from our earliest enterprises since 1861. But in spite of them we have had the greatest, in manufactures, agriculture and mining, and we will probably have more in spite of their false fronts and deceptive propaganda.

They insist that we are not to blame for what they can prevent. They are so wedded to free trade and the British system that they will rob protection of its fruits and benefits, and will rather have adverse and "hard times" than to witness any further demonstration of the benefits of protection. They value their principles more than the general good.

But I speak of the leaders of the Democratic party, and they are not with them in sympathy and purpose and will not help them with their votes.

Refect for a moment—there is no section of the country, North or South, which would not be better off with a tariff to protect them. They are giving donations, they are offering bounties, in some communities they are taxing themselves and increasing the property for the sake of securing a market which will employ labor and enlarge their neighboring markets. In the South, the great centre of free trade, they are offering freedom from taxation for 20 years to those who will build their own roads and productive enterprises; and this is the authority of State law. And while all this is going on the leaders of the Democratic party are proposing to tear down the protective tariff, and to give to foreign countries with foreign competing products a place those which these very manufacturers propose to make and which the people, looking after their welfare and not caring for the building up of diversity industries in their villages and cities in our own country, while the free trade Democratic leaders are endeavoring to undermine by unrestrained competition to get rid of the protective tariff and offering every kind of opposition to the inauguration of new enterprises. The people will come to see and understand this; if they do not already, and then will go where their material interests lie and will spend their money to build up and give their votes to pull down.

## MAINE NEWS.

## JUMPED THE TRACK.

Accident on the Mountain Division.

LAND, June 18. The through train to Mountain division of the Maine Central near the interval, left the town cause unknown to the here. The engine, baggage van, and platform sleep left the rails, a car of the train keeping to the passengers were, of course, terribly shaken up, but Superintendent stated that one was injured. The engine and cars were some broken. The passengers were transferred to train sent from Portland to the city about midnight, some late.

## A DESTRUCTIVE FIRE.

Hundreds of Acres Burned Over-Sullivan Nearly Destroyed.

LAND, June 18. A very destructive fire has just been subdued in a started from a burning tree thrown a quarry blast and spread over tens of acres, hurling the old inn to the ground. It was fought by hundreds of men, part were employed by the town of Sullivan to save Sullivan village from de-

struction. The schooner Will Probably Be Destroyed.

At 10 a.m., June 18, the schooner Brothers, Capt. Flanders, of and Portland, Maine, laden with 1,800 bushels of oats, was on Dutch Island when it was struck by a large wave, which was broken by the old inn.

Atkins are being made to the fire, but there is no little of success that the sails have been stripped. The vessel is seven old.

NEW YORK YACHT CLUB.

Racing in a Heavy Sea.

NEW YORK, June 18. The regatta of the New York yacht Club was held to-day in the Hudson River. The Gloriana, Morris' new boat, easily won in her class, beating the nearest competitor, Jessica, 11 minutes an 31 seconds. The winners in the other classes were the Margarite and Katharine.

A TERRIBLE RASH.

Mass Damage Done and Several Lives Lost.

WATerville, June 18. A terrible rain storm swept through the Illinois river valley, causing great damage to crops, cattle, gardens and fences. In Copper Creek Valley, just across the line in Fulton county, a family named Gray had a terrible time. The father and son had to leave the house and started to the hills, but the mother refused to leave the house. When half way across the valley a falling log struck Gray and started to burn. The son, a boy of twelve, tried to extinguish the fire, but the mother refused to leave the house. His wife clung to the root and was rescued this afternoon.

YALE GOLFERS.

The New Haven Cup.

June 18. The new

United States Vessel to Look Her Children Dead and Dying With Diphtheria.

SAN FRANCISCO, June 18. The Alert and Mohican sailed to-day for the Alaska coast. The revenue steamer Bear and the Thoth and Cormorant are already north, the Marion is to go up shortly and the Bear is to follow. It is known to-day what the Bear is to be sent. No vessel seized this season to be sent to the port of Frank Weston. The cooler weather continued yesterday as it is refreshing after the intense heat of the first of the week.

We are indebted to the Augusta Driving Association for a complimentary ticket for the season of 1891.

LOCAL VOLUNTEERS.

The Bangor &amp; Aroostook Railroad Company.

BALTIMORE, June 18. Mrs. T. H. Glennan, wife of Postmaster, South Glennan, U. S. N., arrived at Baltimore Thursday evening, from Washington, with her children. The five years old had diphtheria, and the two, two and a half, had a sore throat. Pansy, three years old, died of the same disease this afternoon; Kenneth is now at death's door, and the remaining child has the disease.

MORE SUFFERING.

Homeless People at Seabright Camp Out in Rain.

CHILD LABOR.

House of Commons Votes to Abolish It.

LONDON, June 18. In the debate on the bill to prohibit child labor under eleven years from working, it was adopted, 200 to 188, the government thus being defeated. The majority included a amendment, by Mr. Buxton, that children of all ages should be employed in manufacturing districts. It is a fundamental reform and was opposed by the bulk of the opposition, but gained the support of the labor of the country. The government will provide more work for adults. Mr. Morris said the government to say whether it opposed the Buxton amendment, whereupon Home Secretary Matthews intimated that the government would not accept the amendment.

TORPEDO BOAT.

An Advertisement for Proprietary.

WASHINGTON, June 18. Secretary Tracy has issued another advertisement for proposals for the construction of the steel twin-screw sea-going torpedo boat. Under the former advertisement two proposals were received, but the secretary decided to increase the size of the boat and change plans in other respects so this advertisement was necessary. Proposals will be opened on August 18. The boat will be 100 feet long and 12 feet wide and must be completed within twelve months after the signing of the contract. Proposals may be under the Department's direction, or will be made with the builder's designs. The minimum speed is to be one and a half miles per hour and provision is made for a bonus ranging from \$2,000 to \$5,000 for every quarter mile speed above 24 knots; for deductions \$200 for each knot of a knot deficiency. The boat must be accepted if she makes 22 knots an hour.
